### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Jordan Becker on June 22, 2007.

3. The application has been amended as follows:

Please amend the claims as shown in attached amendment provided by the applicant on June 26, 2007.

4. The Examiner's amendment involving minor changes to the claims has been made in order to maintain consistency among the claims and furthermore to overcome 35 U.S.C 102(e) (regarding claim 39) and therefore place this application in condition for allowance.

### ***Allowable Subject Matter***

5. **Claims 29-55 are allowed.**

6. The following is an examiner's statement of reasons for allowance:

**As to claims 29, 39 and 48,** the prior art does not teach a method and apparatus comprising: a storage system management application, a first agent processing system, a second agent processing system, a physical storage facility,

Art Unit: 2163

plurality of storage servers, wherein first and second agents gather information about hierarchical structure of data maintained by the same storage server and storing those information in physical storage facility, which is accessed by the storage system management application, and further wherein two of the agent processing systems and a storage system management application are separate systems.

**As to claims 30-38, 40-47 and 49-55**, those claims are allowed by the virtue of their dependency on claims 29, 39 and 48 respectively.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***The Prior Art***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Park (US Publication No. 2005/0108484) discloses the backup system wherein the volume of a storage device is divided into the blocks in order to backup data in parallel by plurality of agents. This reference however does not teach agents and management storage system being separate systems and it also does not teach storage system management application accessing the storage facility for the information about the data in the storage server.
